Critical Thinking 101 Sometimes it takes a simple thought -- Critical Thinking 101 -- to shake the foundation of an entire thought system... It was during a youth sports camp in late 1999 that I had an effortless epiphany. "Make sure your kids drink plenty of water," we were told. "Hydration, hydration, hydration -- that's the key." "No problem," I thought. "Everyone knows this basic principle ...

to teach critical thinking have assumed that it is a skill, like riding a bicycle, and that, like other skills, once you learn it, you can apply it in any situation. Research from cognitive science shows that thinking is not that sort of skill. The processes of thinking are intertwined with the content of thought (that is, domain knowledge). Thus, if you remind a student to "look at an issue ...
