Volume I of The Oxford History of the British Empire explores the origins of empire. It shows how and why England, and later Britain, became involved with transoceanic navigation, trade, and settlement during the sixteenth and seventeenth centuries. As late as 1630 involvement with regions beyond the traditional confines of Europe was still tentative; by 1690 it had become a firm commitment.

[Oxford History of the British Empire - Oxford University Press](#)

The Oxford History of the British Empire is a major new assessment of the Empire in the light of recent scholarship and the progressive opening of historical records. From the founding of colonies in North America and the West Indies in the seventeenth century to the reversion of Hong Kong to China at the end of the twentieth, British imperialism was a catalyst for far-reaching change.

[3: The Oxford History of the British Empire: Volume III...](#)

The origins of the British Empire in the sixteenth and seventeenth centuries present special difficulties because no empire, as the term subsequently came to be understood, then existed, while the adjective 'British' meant little to most inhabitants of Britain and Ireland during the years covered by this book. During the sixteenth century, England was sometimes described as an empire, but ...
