THE PSYCHOLOGY OF POKER

Oct 31, 2020

[The Psychology Of Poker](#)

The key section of The Psychology of Poker concerns The Styles Grid, in which we answer some basic questions about ourselves in order to figure out our style at the table. Of course, the most common style is one somewhere in between the four presented. I will mention them now and give their nicknames within brackets: Loose-Passive (Calling Station), Loose-Aggressive (Maniac), Tight-Aggressive (Stone Killer), and Tight-Passive (Rock). Out of these four, the optimal mode is that of Tight ...

[The Psychology of Poker - Poker Strategy - PokerStrategy.com](#)

Psychology of Poker Poker is a game of maths, skill and gambling, but it's also a game of understanding how human beings tick. The psychology of poker can include knowing when to bluff with the worst hand, how to put someone on tilt , and working out what they're holding just by reading their body language.

[Poker and the Psychology of Uncertainty | WIRED](#)

The basis of all psychology is intensive study. Poker psychology covers the multi-faceted components of the game and the behaviour of players, subtle and overt, and the many interactions between different elements. Those with profound abilities in poker routinely attest to the psychological aspects of the game.

[Boost your trading using the psychology of poker ...](#)

At first glance, you might think it odd to suggest there is any similarity between financial trading and playing poker. After all, one is an investment vehicle based on research and knowledge of financial markets, the other is a card game. But there is one key area that links successful traders and poker players: psychology.
